

TeamCam 1080p HD PTZ USB Camera

Affordable, belt-driven, 90° FOV, and low-light performance in a compact form factor

The TeamCam HD PTZ USB camera is ideal for applications that require a **budget-friendly enterprise grade camera** that is unobtrusive when installed. With a USB 2.0 interface for installation, it's ideal for deployment in huddle spaces, small classrooms and meeting rooms as well as mobile cart designs.

Amazing image quality is made possible with a **3x digital zoom along with a Sony 1/3.8 CMOS dynamic sensor** that provides 1280x720 and 1920x1080 resolutions. A belt-driven PTZ mechanism ensures whisper-quiet operation while offering **340° of pan, 200° of tilt** and a wide 90° FOV to eliminate distortion.

At just 5" tall and under 2.5lbs, it's ideal for desktops as well as wall/tripod mounts and is easily controlled with an included IR remote control. **With up to seven camera position presets**, you can quickly focus on any location within the room with a single button press. A high-quality shielded USB cable is included to assist with quick installation.
